Building near poles, pipes and wires

Some things you need to know about
building structures near ActewAGL assets

Building near poles, pipes and wires

If you build a structure near electricity, natural gas, water or sewerage network assets, including pipes, poles, wires and connection points, and the structure has not been approved, you may have to pay for it to be removed, and you may be fined up to \$5,000.

It is your responsibility

It is the landowner's responsibility to ensure that draftsmen, builders, architects, landscapers and developers provide safe clearances and access to ActewAGL's assets when they design or build a structure. **If you overlook this responsibility it could cost you money, delay and inconvenience.**

The law

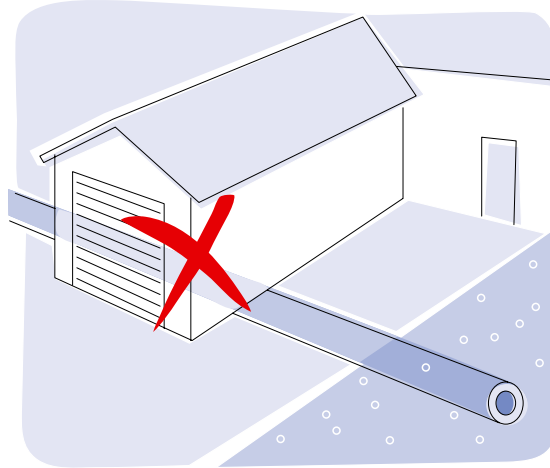

When building a structure near ActewAGL's pipes, poles, wires and connection points, the law prohibits you from blocking our access, from building too close to our assets, from building on top of our assets, and from changing the ground levels.

Do the right thing

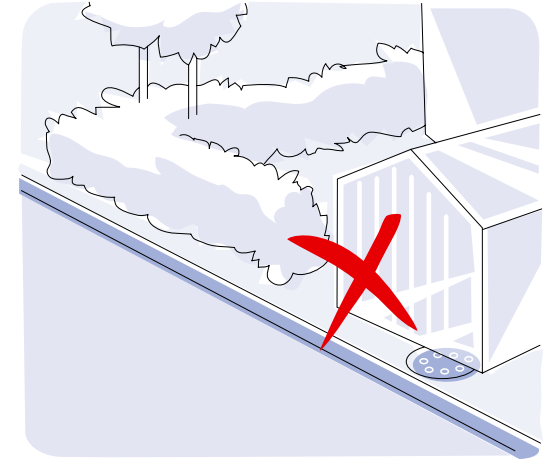

Talk to us about your plans to build a structure and we could save you from a very costly mistake. Call 6248 3555 for details about our assets before you start designing, building or landscaping. If you are planning to excavate, call Dial-Before-You-Dig on 1100 to get details about our underground assets.

If you build a structure in the wrong place it may cost you.

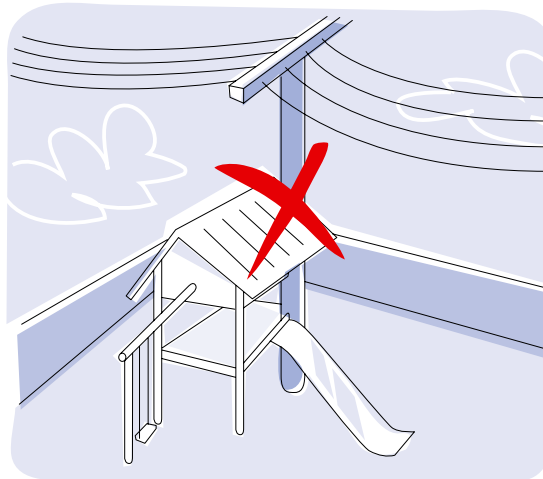

Never build over, or close to, pipes

Never obstruct manhole covers

Never block access to poles

Never build too close to poles and powerlines
