

## Water main connections

The following charges apply from 1 July 2011.

Description	2011-12 charge
<b>Water main connections</b>	
<b>8 Tapping into water main</b>	
<b>8.1</b> 100mm diameter main	
20mm main cock	\$672.00
25mm main cock	\$765.00
32mm main cock	\$806.00
40mm main cock	\$822.00
50mm main cock	\$861.00
<b>8.2</b> 150mm diameter main	
20mm main cock	\$687.00
25mm main cock	\$783.00
32mm main cock	\$832.00
40mm main cock	\$851.00
50mm main cock	\$882.00
<b>8.3</b> 225mm diameter main	
20mm main cock	\$744.00
25mm main cock	\$795.00
32mm main cock	\$838.00
40mm main cock	\$851.00
50mm main cock	\$896.00
<b>8.4</b> 300mm diameter main	
20mm main cock	\$805.00
25mm main cock	\$816.00
32mm main cock	\$861.00
40mm main cock	\$877.00
50mm main cock	\$911.00
Note: These prices do not include excavation works which are commonly carried out by the project contractor (or by ActewAGL at a negotiated price)	
<b>9 Temporary Water Connection</b>	by quotation
The price for a temporary water connection will include connection, disconnection and surveillance costs. (Excavation works may be included by request)	
<b>10 Installation of fire hydrant</b>	
<b>10.1</b> Where insertion of hydrant tee is required ("standard" main depth)	
100mm diameter tee	\$2,293.00
150mm diameter tee	\$2,460.00
225mm diameter tee	\$2,795.00
300mm diameter tee	\$3,511.00
<b>10.2</b> Note 1: Where the main exceeds the "standard" depth, additional risers are to be supplied by the contractor Note 2: Hydrant covers and indicators etc, are to be supplied and fixed by the contractor	
<b>10.3</b> Installation of a hydrant from an existing tee connection	\$1,320.00
<b>11 Raise or lower hydrant</b>	\$1,162.00
<b>12 Remove hydrant / endcap and connect main</b>	
100mm main	\$1,341.00
150mm main	\$1,711.00
225mm main	\$2,405.00
300mm main	\$3,019.00

Description	2011-12 charge
<b>13 Cut in stop valve</b>	
100mm main	\$1,767.00
150mm main	\$1,844.00
225mm main	\$2,763.00
300mm main	By quote
<b>14 Supply and fix stop valve locking cover</b>	
This charge includes the installation and removal at a later date	\$571.00
<b>15 Disconnection of water service</b>	
<b>15.1</b> Service 20mm to 32mm diameter (cap main cock)	\$605.00
<b>15.2</b> Service 32mm to 150mm diameter (cap main cock/ flanged tee)	\$795.00
<b>16 Relocation of 20mm and 25mm stop cock and meter</b>	
<b>16.1</b> Where no additional excavation or shutdown is required	\$626.00
<b>16.2</b> Where additional excavation is required	\$882.00
<b>16.3</b> Where shutdown of main is required	\$1,499.00
<b>17 Hydrants (metered standpipes)</b>	
<b>17.1</b> 25mm hydrant (metered standpipe)	
▪ annual hire	\$278.18    \$306.00
▪ quarterly hire	\$111.82    \$123.00
▪ short-term hire (14 days maximum)	\$61.82    \$68.00
<b>17.2</b> 32mm hydrant (metered standpipe)	
▪ annual hire	\$347.27    \$382.00
▪ quarterly hire	\$122.73    \$135.00
▪ short-term hire (14 days maximum)	\$67.27    \$74.00
<b>17.3</b> 65mm hydrant (metered standpipe)	
▪ annual hire	\$470.00    \$517.00
▪ quarterly hire	\$157.27    \$173.00
▪ short-term hire (14 days maximum)	\$67.27    \$74.00
<b>17.4</b> 65mm hydrant (metered standpipe) – hire for filling pools etc.	
▪ hire of hose and fittings (fixed fee, seven days maximum)	\$62.73    \$69.00
▪ daily hire (per day, seven days maximum)	\$10.00    \$11.00

## Sewer main connections

Description	2011-12 charge
<b>18 Sewer main connections</b>	
<b>18.1</b> 100mm diameter junction into 150mm diameter main	\$1,509.00
<b>18.2</b> 100mm diameter junction into 225mm diameter main	\$1,632.00
<b>18.3</b> 100mm diameter junction into 300mm diameter main	\$1,757.00
<b>18.4</b> Break out existing 150mm, 225mm or 300mm diameter main to a new manhole	\$1,263.00
<b>18.5</b> Connection to existing standard manhole without drop, 100mm, 150mm or 225mm diameter	\$2,528.00
<b>18.6</b> 150mm connection to existing standard manhole including external drop of up to 2 metres	\$6,654.00
Rate for each additional metre of drop	\$241.00
<b>18.7</b> 225mm connection to existing standard manhole including external drop of up to 2 metres	\$6,654.00
Rate for each additional metre of drop	\$241.00
<b>18.8</b> Provide 100mm or 150mm diameter collar out of existing standard sewer manhole for house connection without drop	\$2,750.00
<b>18.9</b> Connecting main to end of existing main or collar out of existing manhole, 150mm or 225mm	\$2,068.00
<b>18.10</b> 100mm diameter PVC temporary connection to standard sewer manhole including removal of PVC pipe from manhole at completion of project	\$2,068.00
<b>18.11</b> Alterations to height of manhole. Raise or lower manhole up to 300mm where the only alteration is to the neck of the manhole and the total length of neck and ring does not exceed 450mm	\$923.00
<b>18.12</b> Supply and fit "gatic" type cover to an existing manhole	\$1,174.00
<b>18.13</b> Disconnection (temporary cap off) of sewer tie for non-compliance	\$822.00
<b>18.14</b> Permanent disconnection of sewer connection to a main 150 or 225 mm Note: This price does not include excavation works which are commonly carried out by the project contractor (or by ActewAGL at a negotiated price)	\$822.00 plus excavation
<b>18.15</b> Rebuild sewer manhole	\$6,095.00
Gatic (if required)	\$464.00

Please note the following:

- The above charges relating to (non-contestable) water main connections, hydrants and sewer main connections apply to basic installations only. Additional charges will apply to non-standard components, work of unusual complexity or work that is necessary outside of normal business hours. Estimates can be supplied on request.
- Only property owners or their authorised agents are entitled to apply to ActewAGL for the (non-contestable) works listed in this schedule.
- A connection/disconnection design plan, approved by ActewAGL, must accompany requests for quotations (except in the case of raising/lowering manholes, raising/lowering meters or raising/lowering stopcocks if they remain in their current location).
- It is the responsibility of the lease owner (or authorised agent) to meet the costs of ActewAGL charges together with all internal and external works which may be necessary to carry out a connection or disconnection to ACTEW Corporation's water and sewerage network.
- Where a customer causes damage to ACTEW Corporation's water or sewerage system, including actions that lead to a blockage in the sewerage system, the customer will be required to reimburse ActewAGL for the costs it incurred in rectifying that damage.
- Officers of ActewAGL are the only persons permitted to work on, cut or tap into ACTEW Corporation's mains or remove meters unless authorised by ActewAGL. All other work is contestable and, when approved by ActewAGL, can be carried out by licensed trades persons. ActewAGL will, however, prepare a quotation for contestable works if requested.
- Quotations cover work that must be undertaken by ActewAGL on mains owned by ACTEW Corporation. Quotations include preparatory tasks such as notification of customers and shut down of the network. Unless stated above, the contractor is responsible for all other work including road opening, traffic permits, preparation of the site, excavation, backfilling and restoration.
- Where the site is not ready at the nominated time to allow ActewAGL crews to commence work, additional charges will apply for rescheduled works.
